Dear All,

I would like to take this opportunity to recognise the efforts of APML team in carrying out the relocation for us.

It was done very professionally and we did not have to worry about anything right from enquiry, proposal, packaging to delivery in Dubai. The internal coordination of the entire team was simply excellent.

I would also like to mention the hard work put in by Navdha as the move coordinator during the entire process. She was always available and was sincerely responsive to all our queries and doubts which was instrumental in choosing the services of APML over other available options. Also thanks to Rakesh, Manoj & Hejaz in carrying out the dispatch & delivery activities respectively. Last but certainly not the least, special thanks to Mr. Rajesh for giving personal attention during the relocation process and guiding us with the right processes which ensured we are always at the right side of rules & regulations.

All the best to the APML team. Keep it up!!

Best Regards,
Dhruv
