To
Customer Relationship Manager (Jaipur Branch)
Agarwal Packer & Mover

LETTER OF APPRECIATION

Dear Mr. Shakti Joshi

I want to thank and appreciate your cooperation during my household shift from Hyderabad to Jaipur through your organization in the month of August 2012. You were the only employee who not only understood my problem from the root but also sorted it out especially when staff at Hyderabad branch have completely refused even to listen to me, which resulted in nurturing the roots of bad image about your organization and drag me to misery arena. Because I am working at Bahrain under Ministry of Education and Jaipur was completely new for me, so along with the other problem of shifting this pinched my emotion to the highest peak.

At that time you proved your intelligence, integrity and loyalty towards your employer. I still remember your **saying that "Agarwal Packer & Mover is a big organization you can't judge the organization just with the behavior of one or two persons; I am assuring you to solve your all problems at the best level of my efforts in most ethical manner"** and it's the result of your coordination, motivational and intellectual skills that you transform your words into deed to reality, which not only resulted in resolving the whole matter within adequate time slice but also changed my mind set about your organization.

I felt from the bottom of my heart that it's the outcome of your smart & efficient efforts which made me to report at workplace on the scheduled date in Bahrain, Ministry of Education.

Once again I would appreciate your timely & warm co-operation, and wish you to have a great career and spherical development endeavor.

Wishes with regards,

Anand Soni
