Hi Janhvi,

Sorry for the delay.

The shipment arrived in good condition and the unpacking was done very well.

I really appreciated the work done by your team and will definitely come to your company (and recommend you) in case of any further relocation.

From the beginning when I called your phone number in November 2014, I have been advised and guided very efficiently. At each step, people have been kept me informed about the progress and answered my many questions. The packing was done very well I only had one small breakage of a coffee filter. Once the goods arrived in India also you kept me informed about the Customs process, and then stored the goods when there were so many delays in getting my flat ready. The goods were delivered to my flat very efficiently the boxes were brought up in less than 2 hours and unpacked a few days later as per my request. I feel you made the relocation of goods very easy for me.

Thanks very much for all your help!

Priya.
