To The Management of Agarwal Movers

Dear Sirs/Madam

With reference to my container shipment under above BL, I do appreciate the services which your organization provided to me for the custom clearance and other matters. I also admit that at one or two point I was disappointed, not because of you but with the attitude of shipping line people which were coming each time with new comments and extra expenses to me. In his regard I also appreciate your import team which handled the matter in better way and provided me full support financially and technically just on my verbal assurances.

Finally I am also thankful to your loading/unloading team for bringing the things to my house in very difficult and odd conditions.

I wish you all the success in your business and providing best services to the customers.

Regards,
Khalid Husain
