Subject: RE: Moving goods to India from Singapore

Hi Laxmi,

I am really thankful to the entire team from Singapore to India. I appreciate their competence in the services for meticulously managing my shipment transit to India. In our experience the personal effects received were handled with extreme care.

I am really touched by the service of the team and express my gratitude to the entire team for handling my case graciously. I would be delighted to share my experiences with others and recommend the organization in respect of your services. Although, towards the end, there was a true push factor from your staff on the payment front which was a bit bitter in terms of the experience I could envisage.

Many thanks once again.

Regards

Shailendra S.
