Action upon an Idea

The journey from the inception of a business-idea to its successful conclusion is a long one interspersed with many deviations and bottlenecks, not to say some apparent dead-ends. The fructification of the idea into prolific business warrants a strategy, which takes into account the elimination of difficulties and undesired diversions by laying broad outlines of action taken. This is envisaged as 'action upon idea', but of course through an apt strategy. Agarwal Movers Group has been moving ahead with this central theme and motto, right from the germination of the idea to getting enlisted in the LIMCA BOOK OF RECORDS for two consecutive years in 2013 & 2014.
We Aspire Beyond Myth

Idealism is also a reality -- the reality to which we must all continually aspire. Idealism, for some, may be myth, but for us it's a guiding light to attain what is ideal and turn it into a reality for others. With this core value, we are surging ahead with much conviction and are consistently trying to take the nation, along with us, to new frontiers. Our conviction in values has made us a buzzword for the best in the relocation industry.

A 1000 vehicle strong fleet, our PAN India presence with 76 offices, services to 1264 locations across country, and 3000 skilled man power employed directly or indirectly are some of the facts corroborating what we claim. The inclusion of our flagship company Agarwal Packers and Movers Ltd. in Limca Book of Records 2013 is yet another feather in the cap. Besides, the company's certifications from ISO, IAM (USA), AITWA(India) further boost the company’s rightful image.

With us logistics industry is scaling new heights. We are committed to providing supply chain solutions at par with global standards, competing with MNC’s and creating historical growth story. We are entrusted with the relocation of corporate and individuals alike, and as such we wish to satisfy our clients in every possible way under the sky, and if possible over the sky.

With us move the people, and thus moves the Nation.

Ramesh Agarwal
(Chairman)

As a relocation company, we have prepared and equipped ourselves to offer our valued clients excellent services. Sticking to its foundational value with slight strategic alterations to suit the mood and the need of time, our company has achieved sound growth with a credible future promises. The growth is sterling and conspicuous for what started off as a small business venture has now become one of India’s largest logistics and supply chain management companies.

Shouldering the responsibility of carrying and caring our clients' valuables weren’t easy. Yet with their trust, support, appraisal and loads of hard work and dedication on our part, this journey became worthwhile.

Rajender Agarwal
(Vice Chairman)
Vision
Vision connotes an instance of great perception of future developments. We envisioned Supply Chain Management on such a great height that it could facilitate the robust growth of all avenues finally leading to exemplary National Growth. We had a vision, when we started, to become a keystone constituent of entire Supply Chain Management Industry providing complete logistic solutions, and set a new standard of perfection to be followed by others.

Mission
Mission is a vehicle to drive the vision to its culmination. We committed ourselves the mission to concretize the broad vision by carefully crafting ingenious strategies and setting ourselves into vigorous action to attain what we envisioned. Goes without mention that fair and ethical business practices, expertise in technology, professional attitude and approach, and building long term relationship with our growth partners became integral components of our strategies and as such these reflected throughout in our action.

Philosophy
A strong and positive attitude creates more miracles than any other things as: Life is 10% how you make it and 90% how you take it.
At Agarwal Movers Group, we know where we've been and where we want to go. We also know that there is substantial work ahead. We continue our journey to set the bar higher for ourselves.

Since 1987, we have transformed from a simple transport company to the India's foremost and professionally managed logistics & supply chain management group continuously. We see the transition of an idea to a string of accomplishments—where business barons value us over 6000 millions, where we move the nation by providing diversified logistics and complete supply chain management services keeping our position as No. 1, where we cater to corporate India and individual home shifting in domestic as well as international market, where innovating ideas like home storage are our assets and regular R&D is our approach. Our worldwide presence provides for the swift and safe passage of the consignments to any preferred global location. Extensive know-how of the norms and regulations pertaining to various nations confers us the ability to relocate the consignments hassle free.

The 2.5 Million Square feet warehousing facility, a well maintained fleet of 1000 vehicles, 24*7 customer care services, R&D wing, a strong training Department are some features of the company, which enable it comes up with a cutting edge services to its valued clients.

APM Domestic Shifting

Agarwal Packers and Movers Ltd. has become a sine qua non, for its clients, in domestic relocation and shifting services. Years of spearheading the relocation and logistics supply industry has made APM unparalleled when it comes to domestic shifting, whether it be household goods or car transportation or anything that is valued by our esteemed clients. In the area of domestic shifting and relocation, APM is different from others in many ways. For instance our ultra-modern packaging with quality fabric sheets and perfect boxes is unparalleled in the relocation industry and is just an example.

Our Policy

• We feel gratified only when our customers are satisfied and we have performed up to their expectation, or beyond it
• Zero Tolerance is core of our operations
• In case any unfortunate accident happens in spite of all precautions, we shoulder the entire responsibility of the loss

Feel Extra Secure

New Boxes & Fabric sheets reduce cost by 26% with 260% quality enhancement
Moving beyond domestic frontiers brings different challenges and experiences. Business on global platform warrants:

- Extensive domain knowledge
- Adequacy of resources
- Prompt crisis management mechanism
- Constant watchfulness
- Risk endurance capacity
- Knowledge of nation’s EXIM policy, custom regulations and practices

These are not so easy accomplishments for just any company. Our longstanding existence has conferred these essential prerequisites to carry business on international waters. Moreover, when customers’ culture, belief, need, and expectation vary across nation to nation, it’s a matter of great acumen and consummate skill to provide them the services in an exact manner they want.

No one knows, better than us, the Indian sentiments of going to or coming from abroad.

Striking features of our cargo management services:

- 24-hours prompt service to our global clients through our highly skilled manpower
- Delhi, one of the most prestigious hubs, is with us- a sign of our expertise and growth
- Total customisation of operations
APM Transportation

APM has been leading the transportation business with its cutting edge technology. Not only that, being conscious of environmental concerns worldwide, the company has adopted a sustainable model for its operations abiding fully to its “Corporate Social Responsibility”. Our sustainable business goals are following:

- To demonstrate that we carry "concepts” rather than just the “Household Goods”
- To deliver safe and competitive products to our customers
- Optimizing the environmental performance of our vehicles
- Transferring best practices and knowledge, especially in less industrialized countries where we have a presence
- We have vehicle fitted with tail lift so that heavy goods can be loaded / unloaded with the least number of labor

Our adherence to sustainable practices is total and we have applied these in every single operation taken and have reported accordingly. We provide not only vehicles for transportation, but safety and other related aspects are also our concern.

APM Infrastructure

We provide Infrastructure Services to functional areas like commercial, agricultural as well as many industrial groups having warehouses, godowns, and large sheds. We provide extremely safe, durable, cost effective, aesthetically appealing & easy to install state-of-art structures.

The salient features of the structures we offer:

- The roof proves to be maintenance free and ensures longer life. The basic purpose of a roof is to ensure utmost protection to the goods, machinery and people
- The Roofing profiles are self-supporting structures without trusses, purlins, or ancillary support with unobstructed clear span of 9-35 m
- Roofing panels are mechanically seamed free from holes, nut, bolts, sealants ensuring zero maintenance
- The roofing offers resistance to extreme weather conditions
- Unique mechanical seaming of panels guarantees 100% leak proof roofs

These services are also provided for swimming pools, garages, defense structures, banquet halls and animal shelters etc. The structures designed by us have various advantages like they are self supported, voluminous, damage and corrosion resistant and are perfect to provide a user friendly environment.
APM Supply Chain

APM's foray into Supply Chain Management (SCM) system indicates the maximum expansion of their operations. We have ventured into different verticals under the logistics domain namely warehousing and transportation and this facilitated us to start the supply chain management service.

What is SCM?

- Supply Chain Management consists of stages such as the movement and storage of raw materials, work-in-process inventory, and finished goods from point of origin to point of consumption
- SCM draws heavily from the areas of operations management, logistics, procurement, and information technology, and strives for an integrated approach

We master almost everything of the specified requirements to emerge as a frontrunner in this field too.
APM Record Management

Every company maintains its record from the time of creation till the time of disposal. As every business, the APM Record Management also generates record management in the form of bulk of base information. The information is stored in for further reference which may be required at any state of affairs.

Our safe and clean warehouse ensures to be the perfect place to store documents and get back easily on demand.
