Abhishek,

Thanks a lot for delivering the goods on time and in fact before my expected date, it reached my home. Great Work Abhishek.

There was a smooth transfer from Bangalore to here and with in exactly committed 7 days time you delivered the goods at my door step it was just amazing.

however i opened all the goods and checked the condition of it, its really nice but there are few damages happened to few goods

1. My Electrical rice cooker which is a Philips One got pressed on all sides looks like so it got damaged, still need to check the working condition of it
2. my sons few toys which got broke may be due to the handling issues.

Apart from this i was greatly satisfied the way the delivery happend, i dont know for such small things do i need to go for insurance claim or not.?

Thanks a lot for your service and i sincerely recommend you to my friends who are planning here in near future.

Thanks
Ajay
