Hi Priya,

Here is my quick feedback/experience.

Overall process of scheduling the packing, pickup and delivery was hassle free, I was able to reach you and get an update when needed.

Only issue I had was the packing, although it was done with lot of care, I had lot my crockery and frames broken, as they were packed together instead of individually packed, for example they packed all 6 plates together and had one protectively layer for all 6, that caused some chipping and breakage of the top ones. Similarly 2 frames were packed together and there glass broke.

Other than this, it was good experience working with you.

Regards,  
Pavan
