Hi Sheetal,

Thank you all your help with this shipment. I was very impressed with the packaging and the way you made sure that the goods were fitted into the container making sure no space was wasted.

The damage to the goods was also minimal because of your good packing. We were happy with your overall service and would definitely recommend you.

I would not however recommend Maina as their costs came to more than what you had quoted and service was far inferior to yours.

Kind Regards

Amit Shah
