Hi All,

We have settled in Singapore now, and I am really grateful to all of you for the smooth relocation.

The shipment was received well before our expected time and everything was intact... great job by the packing team.

A special mention about Ritu as she helped me plan the move from day one, even answering my calls at some odd hours. I was a little apprehensive initially to book APML for the move, but her reassuring words and promise made me finalise APML. And I must say, I don't regret it a bit. Thank you Ritu for all the help extended out to me and making this move possible within my budget.

Rgds,
Ankita
